

1 intends? I can see so far as revenues in the budget that
2 the Legislature should probably not be allowed to increase
3 them at least. I don't know that it makes that much dif-
4 ference whether it decreases them, but in any case, it
5 is acting directly on the revenue estimates. I don't know
6 enough about budgeting to know whether some other things
7 that the Legislature might be doing might be said to
8 affect the revenue estimates.

9 MR. CASE: You get into words and semantics
10 here. That word is now found in Subsection 6 of --

11 MR. SYKES: Not in connection with the new
12 thing you have added. My question is, how this integrates
13 with the existing language.

14 MR. CASE: I thought it did.

15 THE CHAIRMAN: I had the same question, not as
16 to A but as to C, and I wondered if you could accomplish
17 everything you wanted by using the word, change, instead
18 of affect.

19 MR. CASE: Actually as far as C is concerned,
20 that is a direct takeoff from present Subsection 6, which
21 uses the word, affect, and uses the word, public schools.
