

1 Mr. Scanlan, you had a motion?

2 MR. SCANLAN: Yes. I move that we delete the
3 last sentence of the proposed Subsection 5.

4 THE CHAIRMAN: Is there a second? Is there
5 any second? The motion fails for want of a second. Any
6 further discussion or motions with respect to Subsection 5?
7 If not, we will proceed to consider Section 6.

8 MR. CASE: Section 6 incorporates something
9 that is entirely new, and I think the Commission in a
10 similar situation has been faced with this problem before,
11 and has responded, and the solution that you find in
12 Section 6 to the problem I am now going to state is some-
13 what analogous to the solution the Commission has already
14 made in this other area, and I believe you will see what
15 I am talking about when I get into it.

16 The problem here is the fact that the Consti-
17 tution has always provided that no appropriation bill,
18 money bill, as they are called in the General Assembly,
19 can move until the budget has been finally passed, and it
20 was for this reason, say some, that the Cooper-Hughes
21 tax reform measure was blocked in the General Assembly
