

1 could be made, but in the context of the Section here and
2 the notes and the idea that the Constitution presently
3 says the Governor, and we are taking it out, I don't
4 believe that anything would happen to the Governor if he dis-
5 obeyed a summons by the Legislature. In other words, if
6 you just started fresh, you would probably be right, Hal,
7 but within the context of what we are doing here, I don't
8 believe there would be any question about it.

9 MR. CLAGETT: You don't think there may be a
10 possibility of a Democratic Assembly and a Republican
11 Governor being at odds and a little harassment might go
12 off?

13 MR. CASE: I think it is possible. This is to
14 prevent as much harassment as possible.

15 THE CHAIRMAN: Could you remove any doubt by
16 adding a phrase such as, other than the Governor?

17 MR. CASE: We just didn't think it was
18 necessary. As I say, in view of the way this is coming
19 up, it would be perfectly clear to anybody who reads it
20 that it is intended to eliminate from the present draft
21 the word, Governor.
