

1 DR. JENKINS: As a Member of the Committee, I
2 felt this was in a practical sense superfluous, but I de-
3 ferred to the legal minds on the Committee. I still do
4 not conceive that it would be a practical difficulty
5 with the budget, and this is related only to budget, for
6 the Legislature or the General Assembly to have anyone
7 come in to defend a budget item. I really feel this is
8 superfluous, but there may be some legal connotations
9 here of which I am not aware.

10 JUDGE ADKINS: They have a pretty strong sanc-
11 tion if they fail to appear. They simply don't pass that
12 item in the budget. That is pretty apt to make a depart-
13 ment head appear when requested.

14 THE CHAIRMAN: Any other comments or questions?
15 Mr. Sayre?

16 MR. SAYRE: I have reservations on this. I
17 would like to move that some form of limitation on the
18 scope of this legislative power be considered and that
19 it be submitted back to the Committee for redrafting.

20 THE CHAIRMAN: Is there a second? Any second?
21 The motion fails for want of a second.
