

1 Constitution, and thereafter all of the provisions of  
2 said Section shall apply. This, of course, is a state-  
3 ment taken from the present Constitution, and I assume  
4 will need a recasting, in view of the, of what has been  
5 done by this Commission, but the substance or the meaning  
6 of it is this: That the bill has to be passed by con-  
7 stitutional majority, what we call constitutional majority  
8 and what I understand the Commission has already decided  
9 shall be the rule, that all laws have to be passed by  
10 constitutional majority.

11           Secondly, that supplemental appropriation bills  
12 shall be subject to veto by the Governor.

13           The powers and rights of the Governor and the  
14 General Assembly specified in Subsection 7 of this Section,  
15 which is the one we just had all the debate on, shall  
16 apply to any supplementary appropriation bill, which  
17 seems to follow, of course. If the Governor and General  
18 Assembly respectively have the rights that we have dis-  
19 cussed with respect to the budget bill, obviously they  
20 ought to have it with respect to the supplemental appro-  
21 priation bill.
