

1 the supplement as distinguished from supplemental appro-
2 priation bill. The amendment which the Governor has
3 tacked on becomes a supplemental appropriation bill by
4 definition, and this Section says that it can be funded
5 by a tax or by the revenue estimate. The difference is
6 that the supplemental appropriation bill started by the
7 General Assembly or initiated by the General Assembly
8 cannot be funded by a change in revenue estimate.

9 THE CHAIRMAN: I think Dr. Burdette's question
10 then goes to one of language. He reads, and I did too,
11 that with respect to the supplemental bill, you would
12 have to fund it by tax and by the revenue; you use the
13 words, and in addition, in the sixth line from the bottom.
14 I understood your comment just now to mean that in the
15 case of a supplementary, not a supplementary appropriation
16 bill but a supplement to the budget that becomes one it
17 could be funded either by a tax.

18 MR. CASE: That is the intention.

19 THE CHAIRMAN: It should be, or. Does that
20 answer your question?

21 DR. BURDETTE: Yes.
