

1 I believe if you go to a county as a
2 whole that then you in that case give a greater sway
3 to a political machine, not saying all political machines
4 are bad, political machines and politics are in it
5 because a concentrated effort by a machine can sweep
6 candidates into office regardless of if a man is
7 strongly supported by neighbors and people with whom he
8 is acquainted.

9 MR. CASE: I would like to ask a question,
10 Mr. Chairman, Does Mr. Bond's motion mean that the
11 candidates have to reside in the district but are
12 elected on a countywide vote, which is one possibility?
13 Or reside in a district and are elected from the vote
14 of that district?

15 MR. BOND: The latter is my intent.

16 MR. CASE: The latter, in other words, the
17 way the members of the House of Delegates are elected
18 in Baltimore County and not members of the Council?

19 THE CHAIRMAN: That is right.

20 MR. CASE: It is important to keep this
21 distinction in mind.
