

1 who have been pushing people for public office for
2 years are not going to be interested. I think they are
3 going to be interested. I can certainly feel sure in
4 my own legislative district a ticket will be fielded
5 by the people who have been active in "politics."

6 Second or third, I really disagree with the
7 Chairman and Mr. Case in that I feel that he and Dr.
8 Winslow and Mr. Eney would have a much better chance
9 of getting elected from a district where they are known
10 and with the help of people who are sympathetic and
11 who have somewhat the same background. I feel if
12 Mr. Case, Mr. Eney, Dr. Winslow ran with non-partisan
13 support, even with the support of the League of Women
14 Voters -- God bless them -- with the amount of money
15 in Baltimore County, the lower end of the county might
16 completely sweep them out. I might be wrong but that
17 is my judgment the way I feel. My last point is I
18 still feel that there is nothing wrong with pure
19 democracy. The closer we can get delegates to the
20 people, I think it is well worth considering.
