

1 MR. SCANLAN: That would be perfectly
2 acceptable to the Committee. I suggest it.

3 MR. BROOKS: One additional question on
4 Section 1 has to do with the date of June 6, '67, we
5 determined before. Apparently there will be a city
6 election in Baltimore in May, 1967, and there had been
7 some recommendation by outside groups that this Commission
8 consider combining the election in the city, statewide
9 election, if it is to be a special election, on the
10 same day as city election, first to reduce part of the
11 expense of a special election and second if voting
12 machines are anticipated to be used, there may be a
13 problem of this following so closely on the city
14 election that the voting machines would still be tied
15 up.

16 MR. SCANLAN: There are several reasons
17 why that suggestion was not acceptable. One, if -- is
18 it May 6?

19 MR. BROOKS: We are trying to determine the
20 date.

21 MR. SCANLAN: Sometime in May.
