

1 MR. BROOKS: We think in May.

2 MR. SCANLAN: That would limit the time in
3 which punitive candidates could file after the General
4 Assembly enacted the law. If you are going to push
5 the election back to early May, obviously sometime in
6 early April people have to get their filing papers in
7 and judges of elections have to prepare the ballot,
8 that sort of thing.

9 Speaking for myself, I don't -- the
10 Committee has discussed this -- I wouldn't like to see
11 this statewide election for delegates who will serve
12 in the convention on the important business of passing
13 a new Constitution, I wouldn't like that election in
14 any way if it can be avoided intermingled with a city
15 election in the City of Baltimore despite the slight
16 saving of money that might be effected if it could be
17 combined.

18 MR. BOND: I can say in discussing this with
19 the Board of Election Supervisors of Baltimore City --
20 and I was quite concerned -- you have a June election,
21 actually have the canvass, if any protest or recount,
