

1 from the Attorney General as to the members of the  
2 Legislature. It did not embrace other officers. The  
3 opinion was in all probability they would be barred.  
4 On that basis a bill was introduced to provide a  
5 constitutional amendment which would remove the bar.  
6 It was not passed.

7 MR. SAYRE: It seems to me we ought to  
8 request an opinion regarding members of any county  
9 council or board of supervisors on a local basis.

10 THE CHAIRMAN: I can't hear you.

11 MR. SAYRE: Wouldn't a member of a board  
12 of supervisors or county council be a civil office?

13 MR. MARTINEAU: I think there is no point  
14 in trying to discuss here any particular offices.  
15 There are probably more opinions of the Attorney General  
16 on this particular question relating to various offices  
17 over the years than on any other question. It would  
18 be impossible for the Attorney General to give any  
19 full range opinion detailing all offices that would be  
20 barred. If the problem comes up, you can probably  
21 find the answer in the opinions of the Attorney General
