

1                   MR. BOND: Should we not prepare such an  
2 approach?

3                   THE CHAIRMAN: We have already taken up  
4 with the present Governor the question of starting  
5 the preliminary discussions to include in the budget  
6 which is now in process of preparation an amount for  
7 the next Convention. We told him we would give him a  
8 more definite figure later but at the moment suggested  
9 to him that he use the sum of \$1,000,000. He indicated  
10 that the uniform practice has been and undoubtedly will  
11 be that the Bureau of the Budget will proceed in the  
12 usual course with preparation of the budget which means  
13 getting the requests of the various departments and so  
14 forth. This will be one of the items.

15                   No final action will be taken. The day  
16 after the election the Governor elect moves in in this  
17 area and the Budget Bureau then begins reporting to him  
18 because it will be his budget.

19                   If the Governor, whoever he may be, Governor  
20 elect, should decide not to put an appropriation into  
21 the budget, I don't believe there is any means by which
