

1 THE CHAIRMAN: Any other question on this
2 section?

3 MR. BOND: I guess the Committee considered
4 what could be basically unfairness. People from
5 Western Maryland and from the outer reaches in lower
6 Eastern Shore actually their net compensation will be
7 much, much less than those from metropolitan areas of
8 Baltimore and Washington who commute. Has the Committee
9 considered that and decided that there should be no
10 travel allowance?

11 MR. SCANLAN: We considered that. There
12 may be -- I think you overstate it -- rather minor
13 inequities. Hopefully the delegates will remain in
14 session and some will try to get back to their places
15 of business. When you start giving a travel allowance,
16 you get into further red tape and calculations. I
17 concede that this provision might effect some minor
18 inequities on those delegates who come from greater
19 distances but in the interest of simplicity, we arrived
20 at \$50.

21 MR. CLAGETT: I would say by further comment
