

1 MRS. FREEDLANDER: Yes. As Mrs. Bothe said, we
2 had discussed this at great length, and this Section 1 is
3 a new Section which was added after our last meeting. As
4 I have stated in the commentary, I do not feel that there
5 is a need for this Section because Section 2 says all
6 the things that Section 1, that we believe in without
7 the necessity. It is mandatory that there be a system of
8 free public schools, and it provides for such other
9 public educational institutions such as kindergartens,
10 adult education programs, and community colleges. That
11 phrase, other educational institutions takes care of
12 the other institutions. Now, the words may seem picayune
13 in my commentary, but I don't see the necessity for using
14 such words as wherever, to foster, enhance and promote.
15 I like the simple words. I like the conciseness of our
16 original Article, and I feel it has more meaning and is
17 something that can be enforced.

18 THE CHAIRMAN: The original Article to which
19 you refer is reproduced in this Report.

20 MRS. FREEDLANDER: Yes, what is Section 2 of the
21 majority Report is, I would like to see be Section 1.
