

1 the University of Maryland found a place where there are
2 buildings, still they come to the Legislature and this
3 is not really the exclusive control that some people en-
4 vision.

5 THE CHAIRMAN: I am just trying to get the
6 point in the record as to the intended meaning of these
7 particular provisions. Mrs. Bothe, you said in answer
8 to earlier questions that under this language you think
9 the State could provide that all the University funds
10 could be put in a certain bank account or subject to cer-
11 tain controls.

12 Did I understand that correctly?

13 MRS. BOTHE: Yes, I believe the present Auton-
14 omy Act calls for deposit with the State Treasury.

15 THE CHAIRMAN: I am not thinking of that. I
16 am thinking of the language of the Section. Is it the
17 intention of the Committee that in saying the Regents shall
18 have exclusive control and direction of all expenditures
19 from the institution's funds, that that is nevertheless
20 subject to the power of the Legislature to prescribe
21 safeguarding controls?
