

1 with Mr. Case who is on our Board because I feel this
2 great freedom in a university, he is a personal and pro-
3 fessional friend, but I differ with him without any
4 appreciable feeling that there may be conditions which are
5 central here to us. It may very easily be said in the af-
6 fairs of the State that a university ought not to feel
7 some trepidation about these matters, about when a new
8 field of knowledge needs to be investigated. Those who
9 investigate it sometimes have to go out into new programs
10 and new activities of an intellectual character which in
11 a State agency, to my knowledge, and in the Federal
12 Government, might be said by superiors, Well, don't
13 discuss that. I can frankly say one of the reasons I
14 left the Federal Government and came to the University of
15 Maryland came from the angle that indeed I was told I
16 could not continue to write encyclopedia articles because
17 it might involve speaking for the Federal Government.

18 We feel so strongly in faculties that we must
19 be individuals, and I emphasize I speak as an individual
20 here. I would say the faculty has not discussed this as
21 a policy, but it would be a very strong faculty sentiment
