

1 the Commission to do me the favor between now and  
2 tomorrow to read carefully the memo of the Commission  
3 and consider before we meet tomorrow morning what we  
4 should do with respect to these recommendations. I say  
5 that because of these considerations which give me a  
6 great deal of concern. So of the recommendations that  
7 the Committee wishes to resubmit have been before us  
8 three times, some have been before us twice. At the  
9 July meeting we had practically a full Commission. I  
10 have checked the votes on some of the matters that the  
11 Committee now wishes to have us reconsider and on one,  
12 I think the last one on the continuing Legislature,  
13 the recommendation was in opposition sixteen to nine.  
14 We have had at times this afternoon seventeen members  
15 of the Commission present. I would think that if we  
16 reconsidered and ended up with a vote, for instance,  
17 of nine to eight to reverse the action previously  
18 taken on a vote of sixteen to nine, it would be most  
19 unfortunate. We haven't any rules of procedure to  
20 enable us to cope with that. I ask you to consider  
21 these matters in your decision arriving at your decision
