

1 of redistricting and it would not meet with the consensus
2 of opinion of a number of voters, as such, what recourse
3 would they have to upset the redistricting plan? Would
4 that have to stay in effect until the next General Assembly?

5 THE CHAIRMAN: Dr. Bard?

6 DR. BARD: I think so. Didn't we pass some reso-
7 lution in respect to petitioning, in regard to reapportion-
8 ment or districting?

9 MR. BROOKS: Yes.

10 DR. BARD: I think the answer is yes.

11 THE CHAIRMAN: It's not subject to referendum
12 under other action of the Commission. Any further comment
13 or question as to Section 5? Mr. Scanlan.

14 MR. SCANLAN: I think the Chair's suggestion
15 about including the word, congressional, when you use the
16 word, districting, that you use the word, legislative ap-
17 portionment is a good one and I think we need to do it in
18 two places --

19 MR. BROOKS: I believe Dr. Winslow pointed out
20 in the last Meeting that you have both districting and ap-
21 portionment in regard to just the Legislature.
