

1 you by saying that when we don't have a written record of
2 the previous meeting, we don't stop. We have to rely on the
3 recollection of the Chairman, and if you disagree with it,
4 we'll submit it to the Commission.

5 MRS. BOTHE: I propose that the matter be de-
6 ferred until the action of the Commission can be established.
7 I don't feel this is a proper proceeding.

8 THE CHAIRMAN: Is this a motion?

9 MRS. BOTHE: I don't know that a motion is in
10 order. I'm appealing to the Chair.

11 THE CHAIRMAN: We can't possibly defer further
12 action on this and then try to check the record. We won't
13 move. We haven't got the time. We must move.

14 DR. BARD: Mr. Chairman, may I add that among
15 the Committee Members themselves there was a diverse opinion
16 as to the validity of the motion Judge Adkins has made. In
17 this area, we did not have complete unanimity with regard
18 to every aspect of our points. Our major point was we
19 wanted to make certain this power was there and there would
20 be the caution which the Commission made clear and here I
21 think there is unanimity.
