

1 indicated that they favored unicameralism because they  
2 felt that it would save a good deal of time and that  
3 ultimately, actually this matter being at cross purposes,  
4 was not true.

5 Yet another reason I would like to mention is  
6 the fact that our balance would become overcrowded,  
7 and not only is this bad within the symbol itself --  
8 I know in some of our districts we have as many as eighty  
9 items on which to vote in the primary, in the last prim-  
10 ary -- not only is this indicative of the symbol of the  
11 primary, but indicative of the fact that there are so  
12 many people that one needs to relate if he lives in a  
13 particular legislative district. This is especially in  
14 a city like Baltimore, that there are complexities in  
15 this situation, and to have a smaller number of represen-  
16 tatives is indeed good.

17 Now, I think, too, the mere fact that the  
18 model State Constitution which has been put together by  
19 people who have made years of study on this question,  
20 and here the recommendation was strongly in favor of uni-  
21 cameralism, I would like to indicate now one reason that  
~~has not been mentioned as to why I do not think this~~
