

1 York Monday morning. I could be here in the afternoon.

2 MRS. FREEDLANDER: I can't make it.

3 THE CHAIRMAN: Out completely for you?

4 MRS. FREEDLANDER: Yes.

5 MR. CASE: I think, I don't want to get
6 into this now, but it seems to me a big area and the
7 frame of reference this Commission has to adopt is
8 unresolved. I have been doing what I can to get it
9 resolved with Judge Adkins, as you well know. But he
10 is not here today, not here yet. I have specific
11 reference to the thing which we got, our Committee
12 got into somewhat obliquely in the revenue picture,
13 that is, the place of the comptroller in the State
14 Government.

15 I rather take it that the Commission at
16 an early time suggested that or recommended in effect
17 that the office be removed from the Constitution as
18 a constitutional office. I have some very grave second
19 doubts about that and second thoughts. My Committee,
20 I think, will probably not buy this recommendation for
21 very cogent reasons which I am not going into now.
