

1 more. However, our population is increasing rapidly. The
2 General Assembly may decide later that there should be
3 other universities, maybe one on the Eastern Shore, some
4 other place, and I don't think that we should have a
5 constitutional prohibition, nor do I think we should have
6 a constitutional statement which would mean that any other
7 university must be a part of the University of Maryland,
8 and so I propose that the statement read, The University
9 of Maryland shall be governed, et cetera, and leave this
10 question of whether it should be the University twenty-five
11 years in the future to commissions and to the legislative
12 process.

13 My second amendment would be one to include
14 the State, other State colleges. The Committee points
15 out that these colleges are small, in justification of
16 excluding them; that the other institutions are small. I
17 hope the implication was not that they are unimportant,
18 because there are those who love them, and that they want
19 to get away from naming institutions. I certainly agree
20 with that. However, when we consider the total population
21 served by these institutions now and in the future,
