

1 Department.

2 The work of the Commission is so far advanced
3 that I do not anticipate that any new member of the
4 Commission will be added in Judge Melvin's place. So
5 that we will continue with one short of full membership.

6 The Citizens Committee, as you all know,
7 has been organized and is actively at work in promoting
8 a heavy turnout of voters on the referendum on September
9 13. The past few weeks vacations and other things have
10 kept that campaign from moving into high gear but
11 Judge Gray tells me that they expect beginning next
12 week to have a number of things move ahead very rapidly.
13 This embraces many things which are in the category
14 of reminders aside from articles like this flier, some
15 of the large companies with heavy mailings are using
16 a slug, advertising slug in the mailing machines, urging
17 a vote on the constitutional referendum. This is not
18 urging a vote for, it is simply urging people to vote.
19 It is hoped that with the repetitive aspect of that,
20 there will be in a matter of a week or so anywhere from
21 fifty to a hundred thousand of those going out each day
