

1 necessarily final today.

2 The same thing is true with respect to the  
3 first report of the Committee on Finance. Although  
4 in that, as you will see when you come to it, the section  
5 of the Constitution that is recommended by the Committee  
6 is relatively short, nevertheless I have discussed that  
7 with Mr. Case and at the proper time he will submit  
8 that for tentative approval and hold it until his  
9 next report is submitted next week.

10 With respect to the Committee on the  
11 Legislative Department, this is largely a review of  
12 the other matter. Declaration of Rights is new in the  
13 sense that this is the first time the actual draft has  
14 been presented but, as indicated in the Committee's  
15 report, the basis for the actions taken by the Committee  
16 have been heretofore submitted to and approved by the  
17 Commission at one of its very early meetings.

18 I would ask that each Committee Chairman and  
19 reporter particularly where the matter is new, have in  
20 mind that the members of the Commission have perhaps  
21 not had the opportunity to read the full report. So  
make your presentation a little more detailed than you
