

1 that such a provision would be more appropriate either
2 in a charter of a charter community or in their ordinances
3 as would be applicable and that this should be removed
4 from this article.

5 THE CHAIRMAN: This is a matter which was
6 the subject of very great debate at the July meeting
7 except that, as Mr. Case has pointed out, the discussion
8 there bore on the municipal corporations as distinguished
9 from counties. I therefore would treat this as one
10 of the matters already acted upon by the Commission unless
11 you want to press it for reconsideration.

12 MRS. FREEDLANDER: I would like to press
13 it for reconsideration.

14 THE CHAIRMAN: Then I submit at this time the
15 question of whether the Commission wishes to reconsider
16 the deletion from this article completely of any
17 authority to political subdivisions, not considering
18 now Mr. Case's point and leaving that for the Committee
19 on political subdivisions, this is being submitted
20 without debate. Those in favor of that reconsideration
21 signify by a show of hands. Those opposed.
