

1 members of the conference, of course, you come down
2 a point where, no matter what you do, a legislative
3 matter is only going to be as good as the people you
4 have running the show. I am a great advocate of the
5 conference committee because I have seen many times
6 has done a lot of good. Also in the hurried days
7 a legislative session some bills that seem on the
8 of them just ideal will go through one House or the
9 other and I remember on one occasion I think I was
10 only voter on the House floor for an amendment.
11 voted down so quickly that it would make your hair
12 I had just gotten a telegram that morning. Five
13 later the amendment that had been turned down in
14 House almost unanimously went through the Senate
15 any trouble and became law because of the opposition
16 given to get the real facts of the matter before
17 members of the House.

18 The checks and balances, as Senator
19 said, I think are very important. It is better
20 have no law than a bad law in many cases.

21 THE CHAIRMAN: Dr. Jenkins.
