

1 was going to be taxed for that system. This is not true
2 in the county as a whole. The reasoning is totally
3 different when you apply it to the county. Therefore,
4 I submit a different result should follow.

5 THE CHAIRMAN: Mr. Scanlan.

6 MR. SCANLAN: I must confess I certainly
7 share Mr. Case's recollection. The whole discussion of
8 this article before us was in terms of the municipalities.
9 I wouldn't have voted for it in this form because it
10 seems to me in this form it goes a long way to impair
11 the liberalizing and unifying impact of Section 1. In
12 addition to the confusion on the machine and how you
13 would set it up, which I can mainly see it might have
14 also an adverse impact in reducing the number of those
15 who would take the time and trouble to cast a vote in
16 the state election. They would find they are not eligible
17 in the county and would say to heck with it.

18 I would move that the phrase political sub-
19 division be changed to municipality.

20 PROFESSOR ASPER: Is that a term of art?

21 MR. SCANLAN: Municipal corporation.
