

1 That is that you might have members of the Legislature
2 who would be in favor of a bill and wanted to be recorded
3 as voting for it but not be in favor of withdrawing
4 that bill from referendum.

5 In other words, if you had a provision in
6 this section that said, for instance, provided that any
7 law designated as nonreferable and passed by three-
8 fifths vote, et cetera, a member of the Legislature who
9 would be for the bill might vote against it because he
10 would not want to withdraw it from the referendum and that
11 in that situation you would pose a dilemma for such a
12 member with this language.

13 PROFESSOR ASPER: May I point out that this
14 provision does not say that these bills are not
15 referable but merely says they go into effect immediately,
16 shall not be suspended by action of the referendum
17 petition.

18 What is to be not subject to referendum is
19 in Section 10.

20 MR. CLAGETT: There would be no reason why
21 the bill itself could not provide for a referendum
