2 as articulated by the Chairman.

3 PROFESSOR ASPER: What percentage?

4 MR. CASE: I am glad you brought it up, I
5 am careful not to mention a percentage. Now I raise the
6 question I tried to raise before, namely, what should
7 X be? I am not sure 50 per cent is right. Maybe it
8 should be no more than 30 per cent. 50 per cent seems
9 a very arbitrary thing and was hinged on this division
10 of the voters back in 1914 but if you want to really

16 carry the language not more than 50 per cent, I should
17 think that in drawing up the petition at least three
18 jurisdictions like counties would have to be considered,
19 you can't possibly do it in two because you might
20 accidentally run more than half. You have to do it
21 in three so that in essence perhaps you are getting 30
