Folio broadside.

Leaf measures: 12¼ x 8 inches.

This important broadside which was sent to the states contains the statement that "Unless the United States in Congress assembled shall be vested with powers competent to the protection of commerce, they can never command reciprocal advantages in trade; and without these, our foreign commerce must decline and eventually be annihilated." It contains resolutions requesting the states to empower Congress for a fifteen year period to prohibit trade with subjects of foreign nations who have not entered into commercial treaties and also to prohibit importations in vessels not of the country in which the goods were produced. The Maryland Assembly passed an act authorizing Congress to collect a revenue tariff but it did not go into force because the others did not all do the same.
