ACCESSIONS

No attempt will be made here to list in detail the records which were received at the Hall of Records during the first four years of its operations. They are analyzed in the *Catalogue of Archival Material at the Hall of Records* (Publications of the Hall of Records Commission No. 2, 1942). They are to be found in the typewritten annual reports of the Archivist and in the Accessions books of the Hall of Records, all of which have been revised for the early years.

A general chronological listing of the major accessions from public sources should not be without utility, however, in a consideration of the growth of the Hall of Records.

Fiscal Year 1934-1935.

Maryland Court of Appeals: During the period between June 1, 1935 when the Land Commissioner took up quarters in the Hall of Records, and the appointment of the Archivist, October 1, a large collection of the records of the Court was moved to the Hall of Records. This collection included the very large series of Engrossed Acts of the General Assembly and some records of the defunct Provincial and General Courts. Most of these materials had been previously catalogued by the court (*Catalogue of Manuscripts and Printed Matter in the Possession of the Court of Appeals of Maryland*, 1926. Note: these materials have been re-examined during the last few years and, while the *Catalogue* is still useful, it should be used with caution).

Fiscal Year 1935-1936.

Commissioner of the Land Office: The Land Office had for a long time been designated as a depository for non-current records of other offices of the State government. In accordance with two opinions of the Attorney General, April 25, 1935 and November 8,
