P. P. (Old Series 14) 1749-59.....	518
Total Pages.....	8,693

PHOTOCOPYING

Photocopying of our own records continued this year at a little above the rate of last year. Receipts were \$178.50 compared with the previous year's \$173.00.

Our long-term program of photostating county records used our equipment to its maximum capacity for the second year in succession. Several of the series listed below are now complete, others only begun. The choice of materials to be copied is at present restricted to those counties which are willing to accept photocopies in return for the originals and which are able and willing to pay for this work. An effort is now being made to procure a special appropriation for such copies so that counties which have old records but slim purses may take advantage of our photocopying facilities.

Prince George's County Land Records.....	13 volumes	6,536 pages
Frederick County Judgments.....	4 volumes	2,489 pages
