

Our first task during the present fiscal year will be to complete the Charles County work. This will make it possible for researchers to find at the Hall of Records all the land records of Southern Maryland that have survived. We shall then have, at least through the year 1788, the originals for Charles, Prince George's and Anne Arundel Counties; courthouse fires have destroyed the early land records for St. Mary's and Calvert Counties. We hope to finish or to make substantial progress with Kent and Dorchester Counties and, if possible, to begin the next series on our schedule, namely Queen Anne's County.

The materials completed during the year are as follows:
