Harford County Land Records

Liber AL 1 1773-1776 .....	491 pages
Liber JLG A 1777-1778 .....	445 pages
Liber JLG C 1779-1782 .....	494 pages

Total number of pages of County Land Records... 5,520

In addition to work accomplished for the Hall of Records and the various counties, the photocopyist at the Hall of Records is asked to make many photostatic copies of materials in our vaults for searchers. These are all paid for with the exception of those orders marked "no charge," which come from other agencies of the State government. Collecting for such work would be an expensive and meaningless bookkeeping gesture.

Number of paid orders.....	306
Number of "no charge" orders.....	31
Number of exposures .....	1,752
Number of pages .....	2,367
Amount collected from private searchers.....	\$876.00

Closely resembling the photostatic service which we offer is the preparation of projection prints from our present stock of microfilms. This work is done at the Hall of Records by enlarging the microfilm image on sensitized paper. This service may be expected to expand in the future.

Number of paid orders.....	26 (83 exposures)
Number of "no charge" orders.....	1 (21 exposures)
Number of exposures.....	104
Number of pages .....	99
Amount collected from private searchers..	\$83.00

Where the document sought is of sufficient length and the searcher is equipped with a microfilm reader, we will prepare on order microphotographic reproductions of original materials in our collection.

Number of orders .....	3
Number of exposures .....	395
Number of pages .....	790
Amount collected from private searchers.....	\$19.75
