

## PHOTOCOPYING

It is gratifying to report that our photographic department enjoyed a most successful year. We provided fewer photostatic copies for private searchers, but in every other field the quantity of work accomplished exceeded that of the previous year. The larger number of photostatic pages for "Other State Agencies" is accounted for mainly by the copies of budget amendments which the Department of Budget and Procurement furnishes the Finance Committee of the Senate and the Ways and Means Committee of the House of Delegates. There were, in addition, many copies of Acts of Assembly needed by the Department of Law.

A statistic which may be of interest to the members of the Hall of Records Commission is found hidden in the total of microfilm pages -- the proceedings of both the Senate and the House, which are filmed here after each day's session, amounted for the long session to exactly 14,646 pages. Our microfilm operator also filmed 214 volumes of Anne Arundel County Land Records and 72 volumes of church records. This film was added to our collection and will be described more fully in "Accessions."
