

---

am sure, too, that you will be interested in the transfer of non-current records to the new record centers; these records are listed in the Records Management section of this report. It is our best judgment that the combined new areas in the Hall of Records Building and the two record centers should provide adequate space for storing both historical and non-current records for the next fifteen to twenty years.

Respectfully submitted,

MORRIS L. RADOFF  
*Archivist and Records Administrator*
