

Other than this expected confusion in manning the Record Centers during the first year of their operations we enjoyed almost unparalleled stability in staff membership. There was only one change in Program 1, the resignation of the Account Clerk; and none at all in Program 2, Archival Administration.

There were only two reclassifications of positions during the year both of which have already been noted: one upward, from Senior Account Clerk to Stenographer, Accounting; and one downward, from Junior Archivist to Photographer, although in this case the reclassification had been made earlier but only became effective with the transfer of Mr. Hirsch. All of us will benefit, however, from the general increase in salaries of five percent of the minimum in each classification, in the form of a sixth increment, which was provided by the General Assembly and which becomes effective July 1, 1960. The new scale is given for your information in "Financial Statement."
