LIBRARY

Our library continues to grow, but at a deliberate rate. During the past year, we acquired 116 titles. Some of the items added this year represented periodicals which we regularly receive, while others constitute new and welcome additions to our shelves. As in previous years, we have limited our purchases to a very few items.

During fiscal year 1959-60, we received many gifts, only a few of which can be mentioned here. From John N. Pearce came a copy of his Master's Thesis submitted to the University of Delaware entitled "Early Baltimore Potters and Their Wares, 1763-1850." John R. Heller III presented a copy of his Senior Thesis at Princeton University on "The Growth of Democracy in Maryland, 1790-1810." Mrs. Irving
