Unless otherwise noted, the beginning date, 1851, is the point at which the Church of Jesus Christ of Latter Day Saints terminated its microfilming project in Maryland. The final date, 1949, is that of the beginning of regular microfilming of county land records by the various clerks of court. The copies which they make are sent to the Commissioner of the Land Office annually.

After fiscal year 1962, there remained to be done seven counties and Baltimore City. At this writing, Garrett County is finished except for retakes, Allegany County is almost finished, and Kent County is well-begun. St. Mary's, Dorchester and Somerset have not been touched. Montgomery is being done by the Clerk of the Court and he has now progressed to the 1940's. Baltimore City, which is a project of the Clerk of the Superior Court, is now at 1905.
