LIBRARY

Our library has continued to grow through gift, exchange, subscription, and purchase. During the past year, we added about one hundred and ten books and pamphlets to the library. This brings our total number of items to approximately 6,000.

In addition to the usual titles which we receive regularly each year, we have added many genealogical publications. Among these are the genealogies of the Butterworth, Barrackman, Black, McKay, and Holliday families. The Maryland State Society, Daughters of the American Revolution has continued to give us invaluable source records. Among these are the Index to the Prince George's Parish Register, compiled by Mrs. Helen W. Brown, and The Tombstone Records from Monocacy Cemetery, Beallsville, a gift from the Bottony Cross Chapter.

We have continued to supplement our holdings of county and municipal codes as is required by statute.

As during previous years, we have continued to limit the number of volumes purchased. In this latter category are Aubrey Bodine's *The Face of Maryland*, Philip Hamer's *A Guide to Archives and Manuscripts*, and Christopher Colles' *Survey of the Roads of the United States in 1789*.
