REPAIR AND BINDING

The work of the Repair Room was satisfactory this year; there were 23,251 pages (or pieces) deacidified and laminated, and 57 volumes bound. There were many other tasks such as the repair of bindings on printed books, the treatment of leather on old bindings, examining *in toto* the former Land Office records and setting priorities for their repair, showing the work to visitors, all of whom are interested in the repair and preservation of documents, etc.
