

CHAP. 124. to comply with such order, it shall be the duty of said inspector to proceed at once to have such offender arrested and punished in accordance with the provisions of this Act.

MAP OF MINE.

Section 208 of Article 1 and Section 162 of Article 12. The
 Map of mine. operator or superintendent of every coal mine shall make, or cause to be made, by a competent engineer or surveyor, an accurate map or plan of such coal mine not smaller than a scale of two hundred feet to an inch, which map shall show as follows: First. All measurements of said mine in feet or decimal parts thereof. Second. All the openings, excavations, shafts, tunnels, slopes, planes, main entries, cross entries, and rooms in said mines. Third. By darts or arrows made thereon by a pen or pencil the direction of air currents in the said mine. Fourth. An accurate delineation of the boundary lines so far as possible between said coal mine and all adjoining mines or coal lands, whether owned or operated by the same operator or other operator, and the relation and proximity of the workings of said mine to every other adjoining mine or coal lands. Fifth. The bearings and lengths of each tunnel or entry and boundary or property lines. The said map or plan, or a true copy thereof, shall be kept in the general mine office by the said operator or superintendent for the use of the Mine Inspector and for the inspection of any person or persons working in said mine whenever said person or persons shall have cause to fear that any working place is becoming dangerous by reason of its proximity to other workings that may contain water or dangerous gas.

Section 209 of Article 1 and Section 193 of Article 12. At
 Excavations to be shown on map. least once in every six months, or oftener if necessary, the operator or superintendent of each mine shall cause to be shown accurately on the map or plan of said coal mine, all the excavations made therein during the time elapsing since such excavations were last shown upon said map or plan; and all parts of said mine which were worked out or abandoned during said elapsed period of time shall be clearly indicated by coloring on said map or plan; and whenever any of the workings or excavations of said coal mine have been driven to their destination, a correct measurement of all such workings or excavations shall be made promptly and recorded in a survey book prior to the removal of the pillars or any part of the same from such workings or excavations.

MUST BE TWO OPENINGS.

Section 209_A of Article 1 and Section 164 of Article 12. It shall not be lawful for the operator, superintendent or mine
