

CHAP. 115

with a one degree curve; thence to Cannon avenue; thence from the south side of Cannon avenue northwestwardly to the Hull and Ladle Spring alleys to the Finnegan drain; thence westwardly through the rear of the properties of Harman, Gassman and others to the inlet at the property of Martin Schindel, on Washington street, connecting at that point with the Town run drain; such drain to be in length about three thousand four hundred and sixty feet.

Drain to be  
constructed,

Second—A drain, which shall be known as two portions of the Salem avenue drain, the first commencing on Salem avenue, near Cushwa's coal yard, and running northward to Mitchell street; thence running northwestwardly in Mitchell street to insect an open drain; such drain in length to be about six hundred feet. The second portion to begin on the east side of McDowell street, and run thence across said street to intersect the new drain at the alley in the rear of Mr. Hyde's property; such drain to be in length about two hundred and sixty-five feet.

Drain to be  
constructed.

Third—A drain to be known as the East avenue and Broadway drain, commencing at the end of the portion of the drain now completed on Jefferson street, and running thence through the Waltermeyer alley to a point opposite Broadway; thence turning west to Broadway; such drain in length to be thirteen hundred feet.

Drain to be  
constructed.

Fourth—A drain commencing on the culvert at Liberty street, and running thence southwardly to Valentine street; such drain to be in length about two hundred and eighty feet.

Drain to be  
constructed.

Fifth—A drain to be a continuation of the Finnegan drain, commencing at the south side of Franklin street at the Hoover property; thence crossing Franklin street in a northerly direction; thence northwestwardly to an alley in the rear of Franklin street; thence to an alley running from East avenue to Franklin street, about one hundred and fifty feet south of East avenue; then following said alley northwardly to the north side of East avenue; such drain to be in length about eight hundred and forty-five feet.

Drain to be  
constructed.

Sixth—A drain to be known as the Sprecher drain, commencing on the south side of Frederick street and running southwardly therefrom, a distance of about seven hundred and fifty feet to the southeast end drain.
