

than five hundred dollars per mile where the same shall have been graded by the said County Commissioners. And in no case shall such passenger or other railway, railroad or tramway be constructed upon the graded and macadamized portions of said road where said portions do not exceed in the aggregate forty feet in width. And should said County Commissioners decide to grade less than sixty feet in width of said road as now laid out, said graded portions shall be located either upon the east side or the west side of said road as now laid out through its entire length. Failure to grade said road to the full width of sixty feet, as now laid out, shall not be construed as an abandonment by the said County Commissioners of that portion of said road not actually graded, but the same shall remain vested in said County Commissioners subject to such uses as the public interest may require in the discretion of said County Commissioners. The grade of any passenger railway, railroad or tramway constructed over or along the bed of said road under the provisions of this section shall conform to the grades of said road as established by the County Commissioners, and such passenger or other railway, railroad or tramway shall be constructed and laid in such manner as to allow safe, free and easy access to said public county road by persons living along the route of the same, and having to cross the track or tracks of such passenger or other railway, railroad or tramway to reach the same.
