

205. District supervisors shall in April in each year, or earlier, if possible, make a general inspection of all the roads in their districts, noting carefully the flow of water and the drainage that will be necessary; they shall consult abutting property owners, and may, if they see fit, contract for a sum less than ten dollars, with owners for doing certain specified work and repair to roads and culverts bounding upon their lands, such work to be finished not later than May thirtieth; they shall pay for all hire of men and of teams, and for material purchased, from the road funds placed to their credit with the treasurer of Garrett county, or in their hands, and shall take receipts for all money thus paid out; they shall consult the road engineer upon all important repairs and shall follow whenever possible the printed instructions which the engineer shall furnish them in regard to the methods and maner of making roads.

206. The Board of County Commissioners shall annually levy upon the taxable basis of the county such an amount as they may deem necessary for the construction, maintenance, and repair of roads and bridges; when this levy is made fifteen cents on each one hundred dollars of the taxable basis of each and every separate election district, shall be set aside to the exclusive use of the roads and bridges in that particular district, the increase above that rate only going into the general road fund of the county; they shall cause the amount thus apportioned to each district to be placed in the hands of the county treasurer, subject to the order of the supervisor of that district.

206A. When the district supervisors shall have given the bond required of them by the County Commissioners, all funds shall be placed to their credit, and subject to their order in the hands of the county treasurer.

206B. Each of the district supervisors shall do, or cause to be done all the regular annual repairs upon the roads and bridges under his control before the first day of September in each and every year; each of the district supervisors shall be required to set aside five per cent. of all the monies coming into their hands from time to time for general road repair, this money so set aside shall be used only between the first day of September and the first day of April of the following year, for the unforeseen and accidental repairs of roads or bridges and for draining of roads, opening of breakers and culverts and snow drifts. Any money remaining in the hands of the county treasurer to the credit of any district supervisor at the expi-
