

said Grant street to the Cumberland and Pennsylvania Railroad, and with said railroad northwesterly one-quarter of a mile to Bowery street, and with Bowery street northwesterly one-third of a mile to the beginning; the Supervisors of Elections shall have proper books arranged for said new district, and shall appoint the proper registration and election officials to perform the duties required by law, so that at all elections hereafter to be held the voters in said district may cast their votes in the same.

SEC. 2. *Be it enacted*, That this Act shall take effect from the date of its passage.

Approved April 7, 1910.

CHAPTER 361.

AN ACT to repeal and re-enact with amendments, Section 209H of Article 1, and Section 164G of Article 12 of the Public Local Laws of the State of Maryland, as the same was enacted by Chapter 124 of the Acts of 1902, the same being known as the Mining Law of Allegany and Garrett Counties, such section as amended providing certain requirements with regard to the opening and closing of cross-cuts and cut-throughs for the passage of air and the ventilation of the mines, and defining the distance apart at which such cross-cuts and cut-throughs shall be driven, and defining certain duties as to working in advance of the air current, and making it a misdemeanor to violate any of the provisions of such section.

SECTION 1. *Be it enacted by the General Assembly of Maryland*, That Section 209H of Article 1, and Section 164G of Article 12 of the Public Local Laws of Allegany and Garrett Counties, respectively, as enacted by Chapter 124 of the Acts of the year 1902, be and the same is hereby repealed and re-enacted with amendments, so as to read as follows:

SEC. 209H of Article 1, Sec. 164G of Article 12. It shall be the duty of the superintendent and mine foreman, and of each of them, to see that proper cut-throughs or cross-cuts are made in all the rooms or pillars at such distances apart as the Mine Inspector shall deem requisite, not more than thirty-five yards in any instance in what is known as the Big Vein, and not more than twenty yards apart in any of the other veins, for the purpose of ventilation, and the ventilation shall be conducted through said cut-throughs or cross-cuts into the faces of the rooms by means of check doors made of canvas or other suitable material, placed in the entries and other suitable places, and such superintendent or mine foreman shall not
