

REV. ERNEST LYONS, D.D., L.L.D.

Rev. Ernest Lyons is undoubtedly the most noted colored man in Maryland. By reason of his diplomatic connections as former minister to Liberia and his present position as representative of that republic to this country, he has the right to demand and receive audiences from kings and potentates all over the civilized world. He is a constant and energetic worker, and Baltimore should be proud of him.

DR. HOWARD E. YOUNG.

Dr. Howard E. Young, popular prescription pharmacist at Druid Hill Avenue and Hoffman Street, is a graduate of The Washington High School, and of Howard University in Pharmacy. He established his present business in 1900, when no other colored men were in the same field here, and has ever been successful.
