After the establishment of The Kennard Hospital in the City of Baltimore in the year 1885, the demands for additional hospital facilities increased steadily. Thus the spacious three-story brick building now opened and operated. This Hospital, established over 30 years, with the inscription on the front, "For the Cure of All Manner of Diseases," has carried out the assertion by the number of years of successful operation which speaks volumes for its praise. At the main entrance is the waiting room; to the right is the Drug Department, where four drug clerks are regularly employed, whose aim is always to please and, by double-check system, always accurate. Second floor, to the right of the corridor, Prof. G. W. Kennard's private office, which is fitted up to meet the approval of the very particular. On the same floor is a spacious dining room, and a well-fitted-out Chemical Laboratory also. On this floor is located the Operating Room; all the instruments of latest invention to ensure best results here; everything is perfectly sanitary.
