

A FRIEND OF THE RACE

PRESIDENT J. O. SPENCER, PH. D.

In an article which appeared in many of our papers, the Dean of Morgan College gives the following estimate of President Spencer's work for colored people:

"Fortunately for President Spencer and for the work at Baltimore, he had large experience in education and in working among colored races before he came to Morgan. He served in Japan and in some of the best institutions of America. Fifteen years of hard and painstaking work at Morgan College have given him thorough knowledge of conditions and a firm grasp on the situation. He knows the people of the four Conferences, two white and two colored, and he knows Morgan College and its needs."

Dr. Spencer has also done much to improve the education of colored people in Maryland outside of Morgan College.
