

HENRY ERBEN,
 MANUFACTURER OF
 CHURCH AND PARLOR
 ORGANS.

No. 172 Centre Street, NEW YORK, and
 No. 7 South Eutaw Street, Balt.

The public are respectfully invited to call at our Establishment, where they may find a great variety of Organs on hand finished in an elegant and imposing style, in Gothic and Grecian cases, at prices from \$300 to \$1000, suitable for small Churches, Chapels, or Lecture Rooms. The interior is of the best material and workmanship. They are particularly adapted to stand all Climates, which is a matter of great importance to Southern purchasers. Our organs have now been before the public for twenty-five years, and have obtained a reputation unequalled.

Our Establishment is by far the largest in America, and there are but few as large in Europe.

We might swell several of these pages with references, but one or two will suffice. The Organ in **Trinity Church, New York**, is by far the largest and most superior Instrument in America, for which the American Institute awarded us a Gold Medal. The Maryland Institute also awarded us (this year) a Medal for one of our \$1000 Organs which was purchased and presented by Mr. Corcoran of Washington to the Western Lunatic Asylum, Staunton, Va.

Descriptions of large organs can be obtained by applying to the Subscriber.

Organs repaired and tuned.

JABEZ HORNER, Agent, Balt.
